Ecole 42 USA (42 Silicon Valley) admits students of any gender, religion, race, color, and national or ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at 42 Silicon Valley. At any time that 42 Silicon Valley operates a scholarship or loan program, 42 Silicon Valley shall offer such scholarships or loans on a racially nondiscriminatory basis.

LEARN TO CODE

LIKE A BOSS

42 | SILICON VALLEY

WE'RE DOING THE IMPOSSIBLE.

\$0 TUITION - we don't charge tuition. It's really free :)

\$0 ACCOMMODATION - we have free dorm spaces.

03 PROGRAMS - we've got 3 programs for ages 14-30.

GET SERIOUS

ABOUT CODING.

IMMERSIVE CODING SCHOOL

BASED IN FREMONT, CA

42 offers college-level coding and software engineering programs for free. We've got 1024 iMacs and 600 spaces in our dorms. Our programs are free and so are the dorms.

42 isn't just about learning to code: it's about freedom, creativity, and gaining a toolset for the real-world. We live in a digital world, so when you have the tools to change software, you have the power to create and impact, the power to change lives through technology. 42 is 21st-century education in the Bay Area with pathways to real jobs. Do what you love: come code in our community.

We're a large computer programming and software engineering school with college-level and high school programs, a workshop, and a project incubator. Students so far have internships or jobs at Microsoft, Apple, FileMaker, Scalify, LinkedIn, Instacart, and more.

42 is free. Are you too good to be true?

No! We're really free. There's no catch. Education should be accessible so we also offer free dorms.

OUR CURRICULUM

- PEER-TO-PEER LEARNING
- OPEN 24/7, 365 DAYS A YEAR
- IMACS PROVIDED
- NO TEACHERS/COURSES/CLASSES
- LEARN BY DOING
- GAMIFIED CURRICULUM

What programs do you offer?

We have 3 programs: the 42 Program, 42 Starfleet Academy, and HackHighSchool. The 42 program and 42 Starfleet Academy are computer programming and software engineering programs that cover a wide range of topics/specializations. 42 Starfleet Academy is an intensive 12-month program of the normal 42 curriculum. HackHighSchool is our free coding program for high school students on Saturdays.

Any age limits?

The 42 program and 42 Starfleet Academy are for ages 18-30. HackHighSchool is for high school students (can be flexible if you're eager!).

How are you free?

We're funded by a French billionaire called Xavier Niel (he's like the Steve Jobs of France). He funded 42 in Paris and in Silicon Valley. He wants to give back to society and education is a great means of doing so.

How do I join the 42 program?

You need to apply and create an account through admissions.42.us.org. After that, you need to sign up for Intensive Basic Training, 28 days of coding. Survive then start as a 42 student!

Do I own my code?

Yes. It's 100% yours. It better be good :)

Can I get a tour?

Yes! Contact Shanna: su@42.us.org or call (650) 382-8683
